T-type Hinge

Reliable and consistent performance
throughout cabinet's lifetime

3way snap-on mounting

Highly tolerant

ConfidentClose

Consistent performance

T-type hinge

T-type hinge is engineered for enhanced stability and consistent, reliable damping across a wide range of door sizes and weights.

Its robust and highly tolerant design ensures superior door performance, maintaining reliable closing even in cases of accidental misalignment.

Thanks to 3Way snap-on mounting in three directions, installation remains fast and straightforward, regardless of whether two, three, or more hinges are used - significantly reducing assembly time.

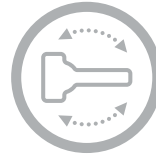

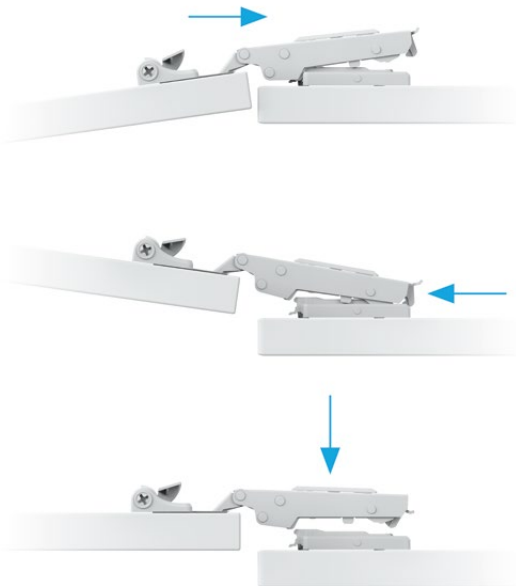

T-type is available in a classic, nickel-plated finish and in Noir, a contemporary dark finish.

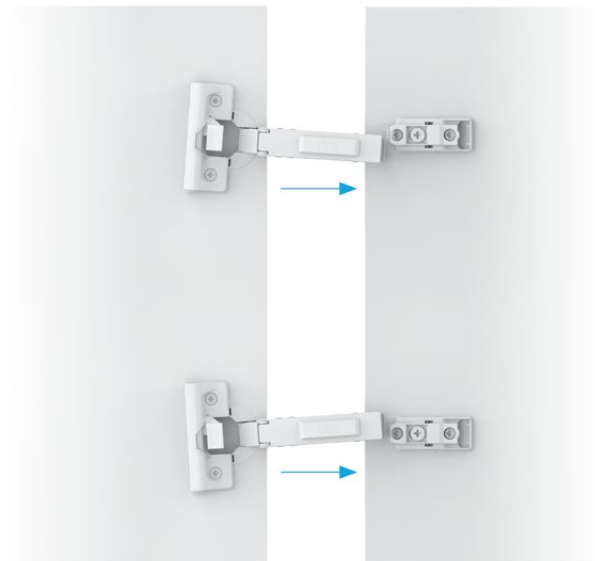

3Way snap-on mounting

- Intuitive hinge-to-plate mounting in three directions
- Easy door installation with multiple hinges per door
- Enhanced mounting experience

Highly tolerant

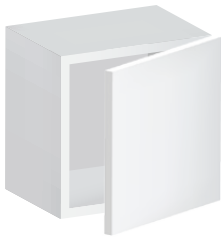

- Efficient performance in marginal drilling tolerances
- Reliable door closing in case of accidental misalignment
- ConfidentClose assured

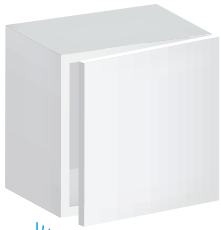

ConfidentClose

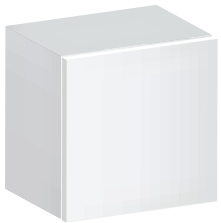

The hinge is designed to provide consumer-preferred way of soft closing action.*

Fast closing

Late start of
deceleration

made in UK, Germany and Slovenia

Reliable and consistent performance

- T-type delivers consistent performance across 200.000 cycles over its lifetime
- Supports reliable operation on doors of all sizes and weights
- Hinge-to-plate attachment assures rigidity and stability

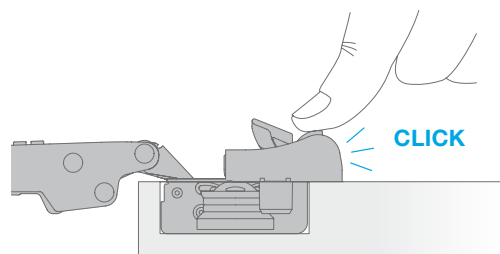

PressTo toolless mounting

T-type PressTo Toolless mounting made simple

- Reliable attachment to chipboard, MDF, and solid wood door
- Effortless snap-on locking mechanism on the hinge cup
- Paired with 3Way hinge-to-plate mounting for fastest cabinet assembly

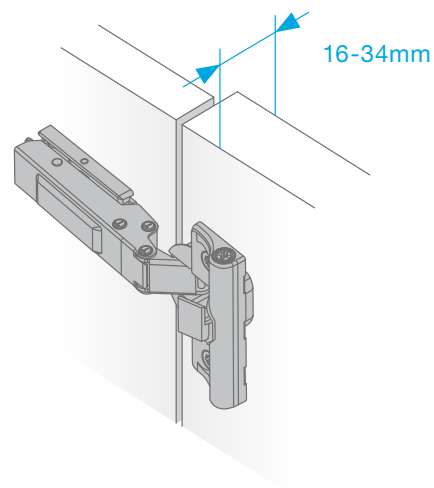

For thick door applications

T-type 95 **Thick door hinge with 95° opening**

- Optimised for doors up to 34mm thick
- Narrow door clearance and side panel reveal
- Consistent performance across various door sizes and weights

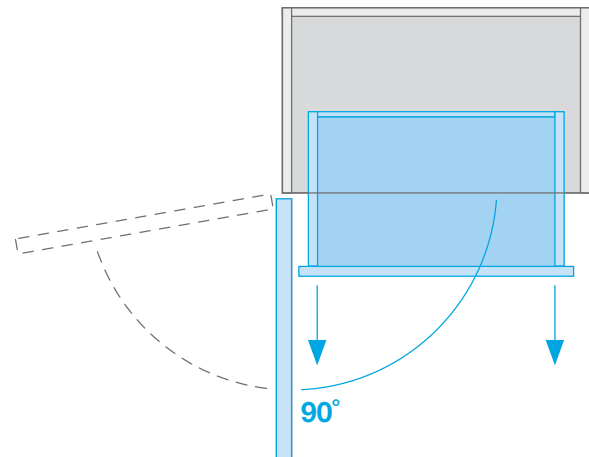

Wide opening angle

T-type-i 170 **Wide opening angle hinge** **with integrated damper**

- Exceptional door stability and full accessibility to the cabinet
- Zero door protrusion at 90° door opening
- Optimal solution for kitchen pantry units with inner drawers or pull-out systems

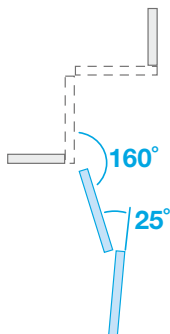

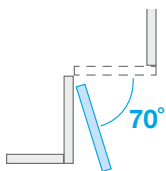

For pie-cut corner applications

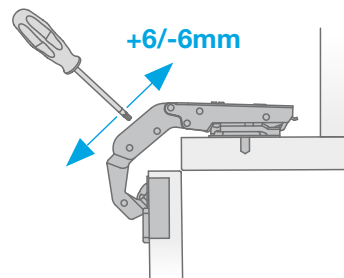

T-type Pie-Cut Double lock hinge opening

- Full access into the cabinet interior at 70° opening
- When both doors are opened and locked at 25°, they work as one and move away without touching nearby cabinets

Easy door alignment

- Cam adjustment of door position
- One-step alignment of doors from 15 to 25mm

Mounting plates

Cam adjustable cruciform mounting plate

Cruciform mounting plate

Cam adjustable linear mounting plate

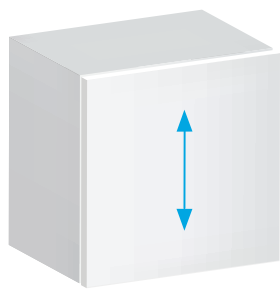

Cam adjustable face frame adapter mounting plate

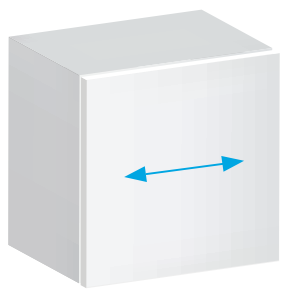

‘3Way’ mounting plate

Type	cruciform, linear
Height	0-1-2-3-4-9mm
Mounting plate fixing	screw-on ready, euro screws, wood screws, knock-in dowels for machine insertion, expando dowels ø5mm

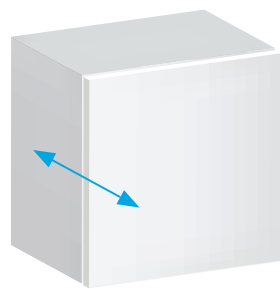

Precise door alignment

Height adjustment
+2/-2mm

Side adjustment
+3/-1mm

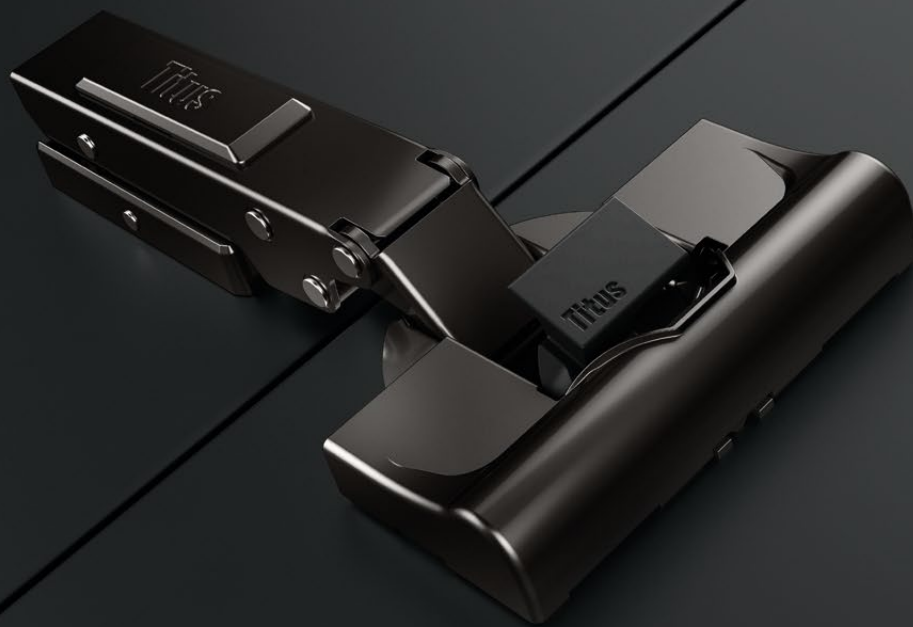

Depth adjustment
+4/-1mm

Technical details

Hinge type	with and without damping
Opening angle	95°, 110°, 120°, 170°
Hinge cup drilling depth	12mm, PressTo 13mm
Hinge cup drilling pattern	48/6mm, 45/9.5mm, PressTo: 45/9.5mm
Maximum overlay	19mm
Hinge arms	0mm, 5mm, 9mm, 17mm, corner application
Cup fixing	screw-on ready, knock-in dowels for machine insertion, PressTo toolless, EasyFix, FastFix

T-type Noir

An elegant dark finish engineered to complement any cabinet design

Noir is an elegant dark finish designed to meet the demand for black and dark cabinet hardware.

More than just a colour option, Noir offers a visually appealing solution that integrates seamlessly with a wide range of cabinet colours and surface textures.

Why choose Noir?

Noir discreetly enhances furniture's design, blending seamlessly into both contemporary and traditional settings while allowing cabinets to take centre stage. This versatile dark finish complements various environments - whether kitchens, bedrooms, offices, or bathrooms - creating a cohesive look that balances style and functionality without drawing attention away from your cabinetry.

Titus damper inside

The core element of Titus soft close systems is our proprietary multi-purpose hydraulic damper. It assures soft and silent closing of doors and drawers. Its modular design guarantees a reliable and consistent damping performance in a wide range of applications. Titus damper is designed to assure efficient damping at any closing speed, providing consistent performance and reliability in reaching the end position regardless of speed.

Proven concept of soft closing mechanism integrated into the hinge cup

- Damper is positioned transversely on the hinge cup
- Intuitive damping adjustment
