T-type Hinge

Reliable and consistent performance
throughout cabinet's lifetime

3way snap-on mounting

Highly tolerant

ConfidentClose

Consistent performance

T-type hinge

T-type hinge is designed for enhanced stability and consistent, and reliable damping of thick, tall and heavy doors.

Its sturdy and highly tolerant design ensures high door stability without sagging even for the heaviest doors with a reliable door closing in case of accidental misalignments.

3Way snap-on mounting in three directions makes the installation of tall and heavy doors with four or more hinges quick and easy, significantly reducing kitchen assembly time.

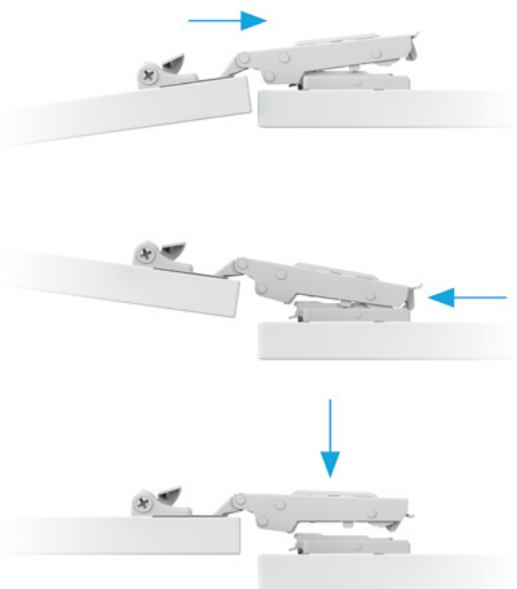

The T-type is available in nickel-plated and trendy Noir dark finishes.

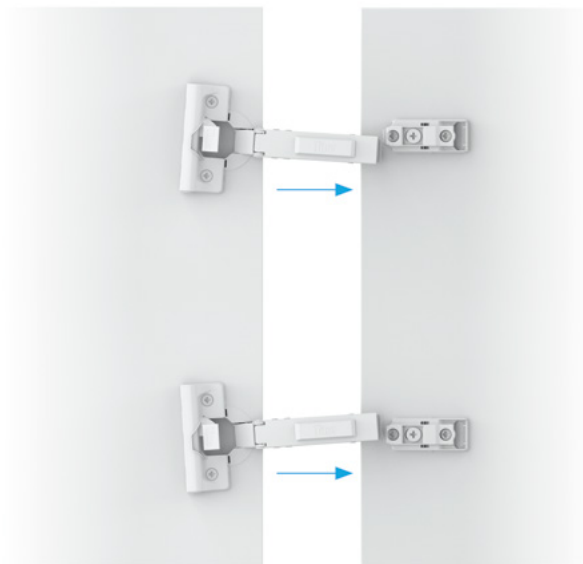

3Way snap-on mounting

- Intuitive hinge-to-plate mounting in three directions
- Easy door installation, even with multiple hinges per door
- Enhanced mounting experience

Highly tolerant

- Efficient performance even in marginal values of tolerances
- Reliable door closing in case of accidental misalignment
- ConfidentClose assured

ConfidentClose

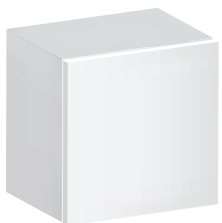

The hinge is designed to provide consumer preferred way of soft closing action*

Fast closing

Late start of deceleration action

Quiet landing with SoftTouch

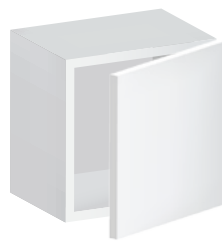

*based on results of Titus research made in UK, Germany and Slovenia

Reliable and consistent performance

- T-type delivers a constant performance for up to 200.000 cycles throughout its lifetime
- On doors of different sizes and weights
- Hinge-to-plate attachment assures rigidity and stability

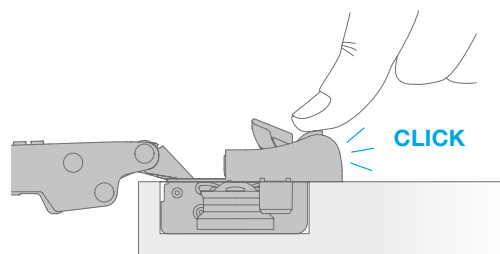

PressTo toolless mounting

T-type PressTo Quick and easy toolless hinge cup mounting

- Reliable attachment to the door in chipboard, MDF and solid wood
- Effortless snap-on locking
- Confident locking action
- Paired with 3Way hinge-to-plate mounting for the fastest cabinet assembly

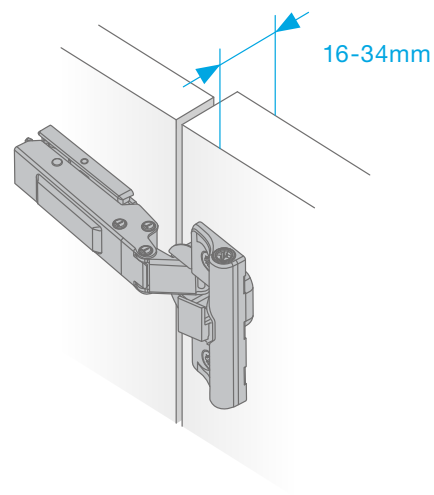

For thick door applications

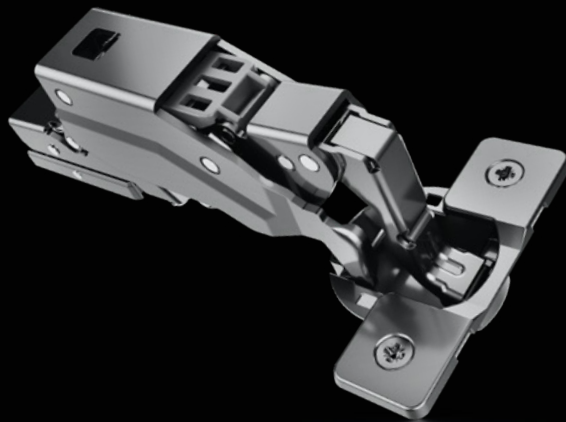

T-type 95 **Thick door hinge kinematics** **with 95° opening**

- Optimised door opening and closing for door thicknesses up to 34 mm
- Narrow reveals between doors
- Reliable and consistent performance across a wide range of door sizes and weights

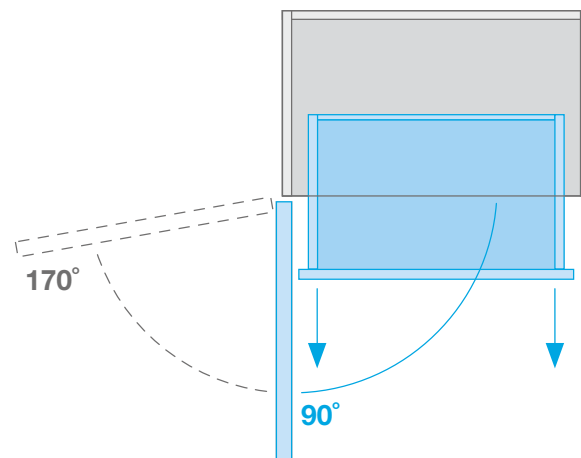

Wide opening angle

T-type-i 170 **Wide opening angle hinge** **with integrated damper**

- Exceptional stability and full accessibility to the cabinet
- Zero door protrusion at 90° door opening
- Optimal solution for kitchen pantry units with inner drawers or pull-out systems

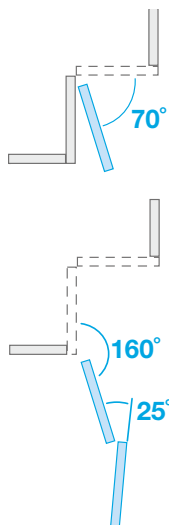

For pie-cut corner applications

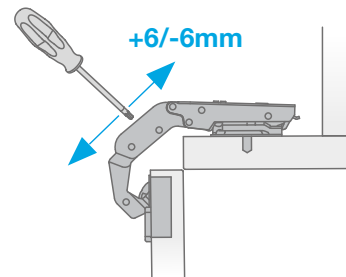

T-type Pie-Cut Double lock hinge opening

- Full access into the cabinet interior at 70° opening
- When both doors are opened and locked at 25°, they work as one and move away from user's working space without hitting nearby cabinets

Easy door alignment

- Precise gap adjustment of +6/-6 mm between two doors
- Easy door alignment and optimal performance on doors from 15 to 25mm

Wide range of mounting plates

Cam adjustable cruciform mounting plate

Cruciform mounting plate

Cam adjustable linear mounting plate

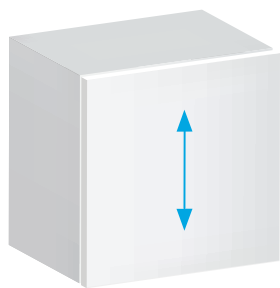

Cam adjustable face frame mounting plate

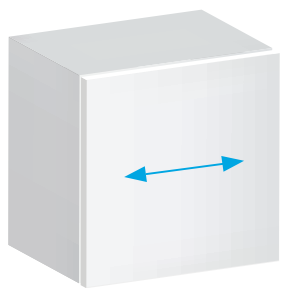

‘3Way’ mounting plate

Type	cruciform, linear
Thickness	0-1-2-3-4mm
Fixing	screw-on ready, euro screws, wood screws, dowels for machine insertion, expando dowels

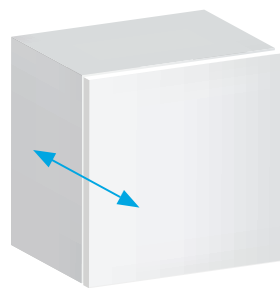

Precise door alignment

Height adjustment
+2/-2mm

Side adjustment
+3/-1mm

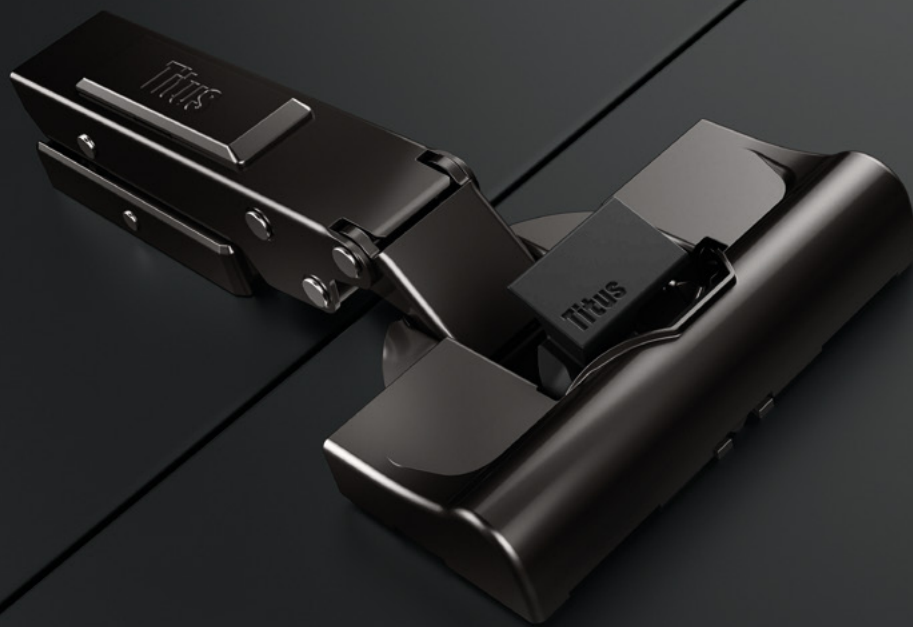

Depth adjustment
+4/-1mm

Technical details

Hinge type	with and without damping
Opening angle	95°, 110°, 120°, 170°
Hinge cup drilling depth	12mm, PressTo 13mm
Hinge cup drilling pattern	48/6mm, 45/9.5mm, PressTo: 45/9.5mm with ø8mm side holes,
Maximum overlay	20mm
Hinge arms	0mm, 5mm, 9mm, 17mm
Cup fixing	screw-on, euro screws, wood screws, dowels for machine insertion, PressTo tool-less, expando dowels, EasyFix

T-type Noir

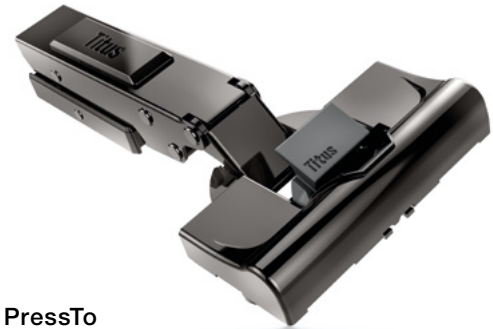

An elegant dark finish engineered to complement any cabinet design

Noir is an elegant dark finish designed to meet the growing demand for black and dark cabinet hardware.

More than just a colour option, Noir provides a sophisticated aesthetic that integrates effortlessly with a wide range of cabinet colours and surface textures.

Why choose Noir?

Noir discreetly enhances furniture design, blending seamlessly into both contemporary and traditional settings while allowing cabinets to take centre stage. This versatile dark finish complements various environments - from kitchens and bedrooms to offices and bathrooms - creating a cohesive look.

Titus damper inside

The core element of Titus soft close systems is our proprietary, multi-purpose hydraulic damper. It assures soft and silent closing of doors and drawers. Its modular design delivers reliable and consistent damping performance across a wide range of applications.

The Titus damper is designed to assure efficient damping at any closing speed, providing consistent performance and reliable movement into the final position, regardless of closing speed.

Proven concept of soft closing in the hinge cup

- Damper is positioned transversal on the hinge cup
- Intuitive damping adjustment
