

Announcement

Titus EU Achieves AEOF Status

20 April 2026

Dear Business Partners,

We are pleased to inform you that Titus EU has successfully obtained **Authorised Economic Operator (AEOF) status for Customs Simplifications, Security and Safety**.

The AEOF status confirms our compliance with stringent requirements in the areas of customs regulations, supply chain security and operational reliability. This achievement also represents an important milestone in meeting the requirements and expectations of our key customers, as AEOF is a widely recognised proof of trustworthiness, security and compliance within international supply chains.

As a company operating globally, the AEOF status strengthens our role as a reliable partner and enables:

- simplified and more efficient customs procedures
- fewer physical and documentary customs controls
- priority treatment in the event of customs inspections
- enhanced security and transparency throughout the supply chain
- improved reliability and continuity of cross-border deliveries

We remain fully committed to maintaining the highest standards of compliance, security and service quality, and we look forward to continuing our successful cooperation.
