

RV Push Locks

2023

Important Information

Technical information

While every effort has been made in the production of this catalogue to ensure the accuracy of information, our products are continually being revised and users should confirm the up to date specification before ordering. Due to constant improvement of products presented in the catalogue, we can make changes at any time and without notice.

Responsibility

It is the responsibility of the user to ensure the fitness of hardware for the intended purpose. We recommend assessment by appropriate testing in the application and by technical enquiry to our representatives.

Intellectual property

Titus Group owns the intellectual property rights in its products worldwide whether as trademarks, patents, intellectual, copyright, designs, illustrations, drawings and the 'know how' contained in their design and production. Titus Group respects the equivalent rights in competitors and all other relevant product design rights. To our knowledge our products do not infringe any intellectual property rights of competitors or other parties. Titus Group takes infringements of its rights seriously and will rigorously defend these rights to the full extent of the law.

*Non preferred articles

All item numbers in the catalogue marked with * are for non preferred items available on extended delivery times.

Trademarks

Titus and Titusonic are registered trademarks of Titus International Ltd. Lama is a registered trademark of Titus d.o.o. Dekani, WoodWelding is a registered trademark of WW SA.

RV Push Locks

Secure locking of cabinets during transit

- Consistent and reliable functioning throughout the product life-time
- For recreational vehicles, boats & yachts, trucks and industrial van interiors

Effortless push-in opening and closing

- Only a light push on knob is required for comfortable door opening and closing

Easy and intuitive mounting

- Simple mounting instructions
- Non-handed lock design for intuitive mounting regardless of the position on door

RV Push Latch

- Universal push-opening mechanism for cabinets without handles
- Mounted at the centre of the door, it enables intuitive push opening from any point on the cabinet door

RV Magnet Lock and RV Bistabil Lock with self-locking functionality

- Self-locking mechanism provide instant door locking without the need to push the knob before taking-off
- For mind-free travelling experience

Versatile range of applications

- For pivot doors, lift-up doors and drawers
- For 13, 16 and 19mm door thickness
- Contemporary square design of knobs and rosettes

Push Lock

Push Espagnollete Lock requires a metal rod for locking on top and bottom of the cabinet.
It is usually used on tall doors.

- Backset 25mm
- Mounting Non-handed
- Locking system With push-button locking
- Fixing screw-on
