Tekform Slimline+ Drawer

2nd generation Slimline drawer

- 
- Reliable front panel engagement
 - Tilt adjustment with easy access
 - Effortless drawer opening
 - Drawer runner compatible with Tacto push-opening system

Tekform Slimline+ Drawer

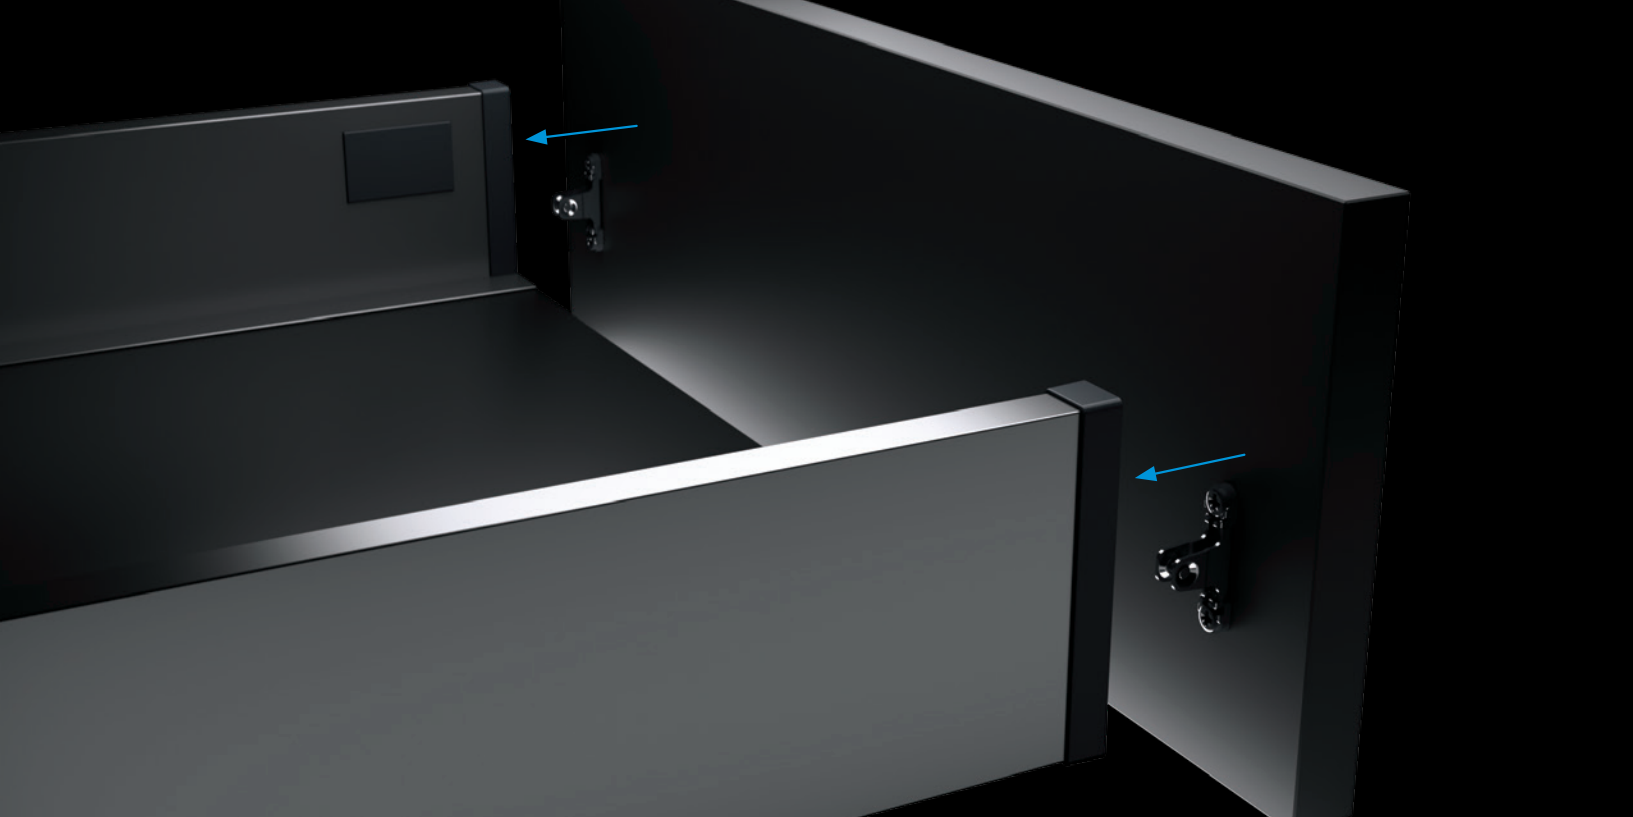

Titus 2nd generation Tekform Slimline drawer with three-dimensional adjustment mechanism and front panel connection designed for reliable front panel engagement and easy disengagement.

It delivers height, side and tilt adjustment which can be accessed at the front of the drawer, simplifying drawer alignment.

The front panel connector has the upgraded clipping mechanism that assures reliable drawer front engagement.

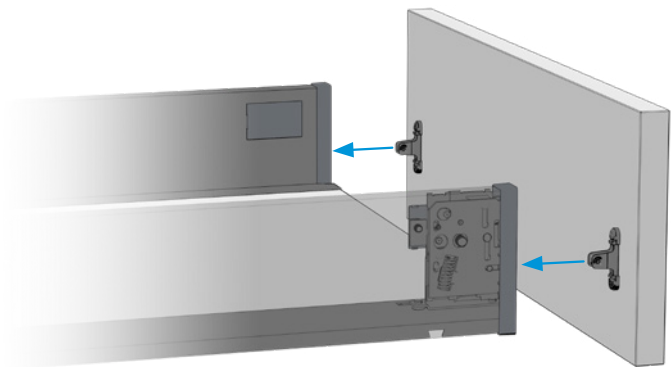

Drawer runners are compatible with Tacto push-opening system and can be retrofited at any time after drawer mounting. Which reduces the stock complexity and makes it easy to upgrade the drawer.

Titus damper provides smooth and controlled movement, the fine-tuning of damper force and spring bring comfortable and effortless drawer opening.

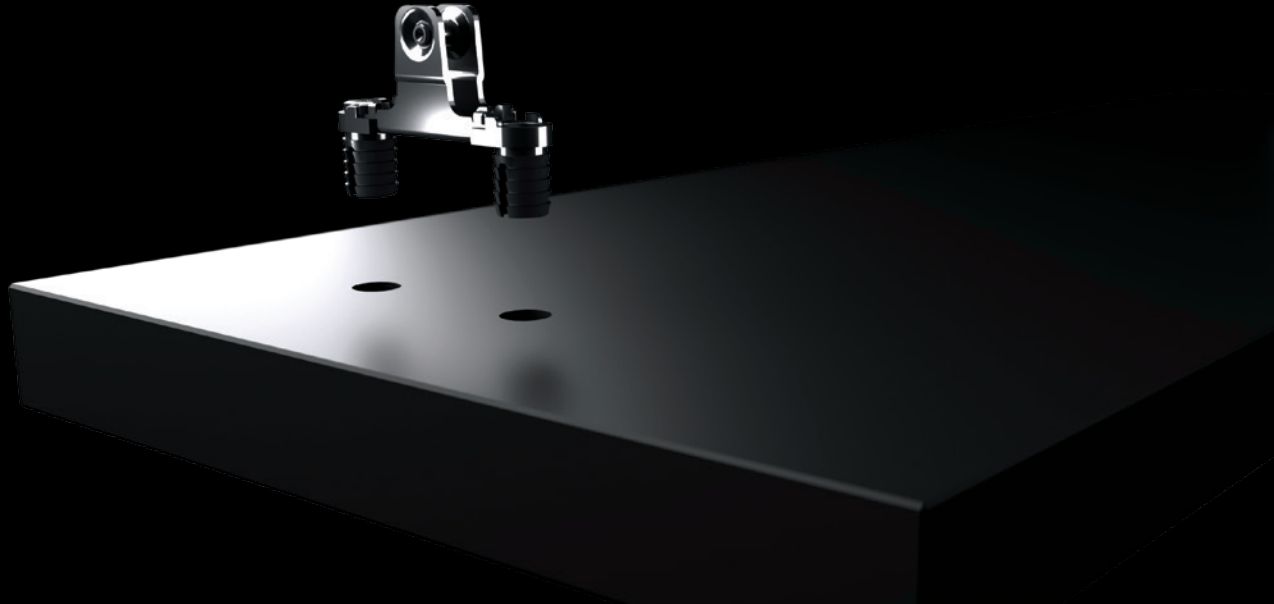

Reliable front panel engagement

Drawer front can be effortlessly disengaged by the same screw at any time

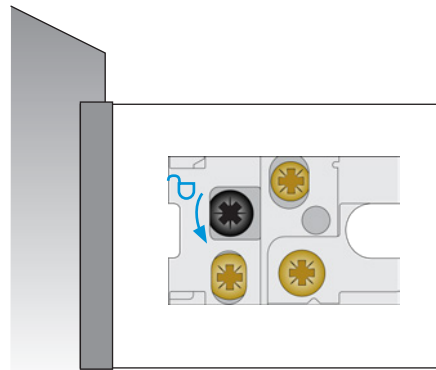

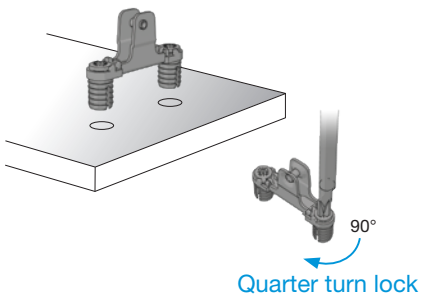

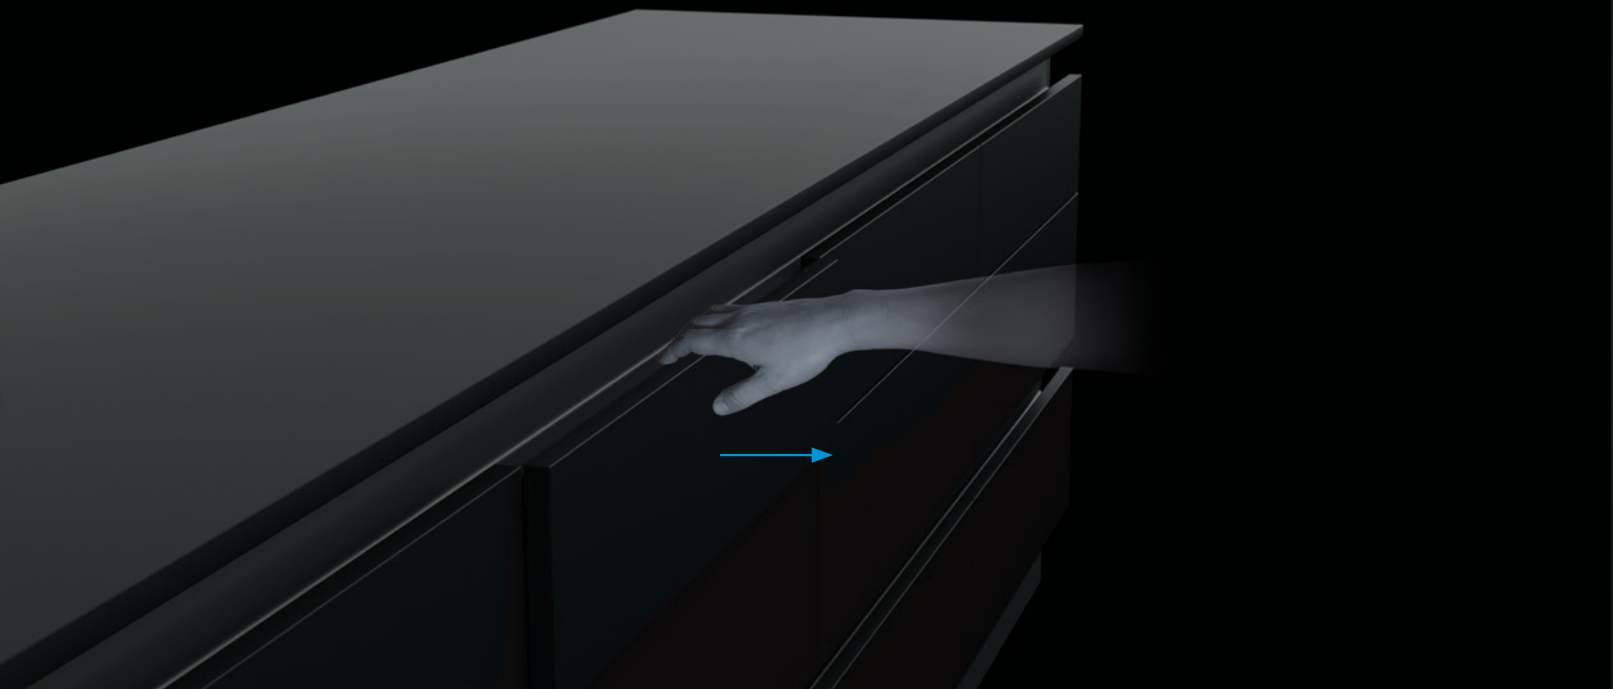

EasyFix

Front panel connector

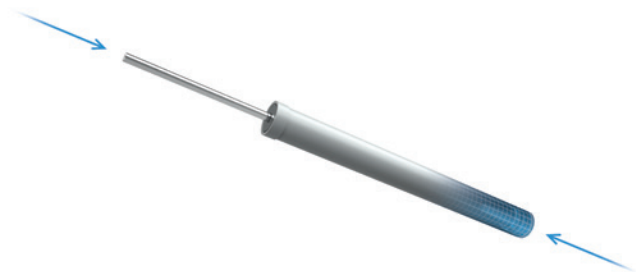

- Front panel connector with simple tool-free insertion and Expando function for firm and reliable front attachment
- Repeatable assembly and disassembly possible

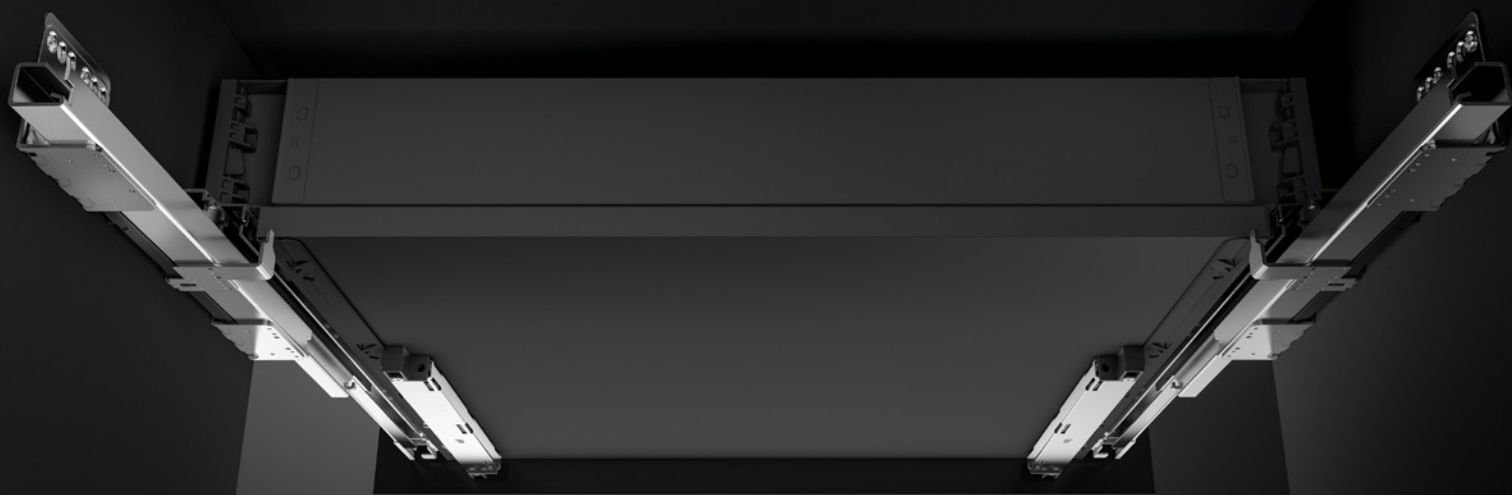

Effortless drawer opening

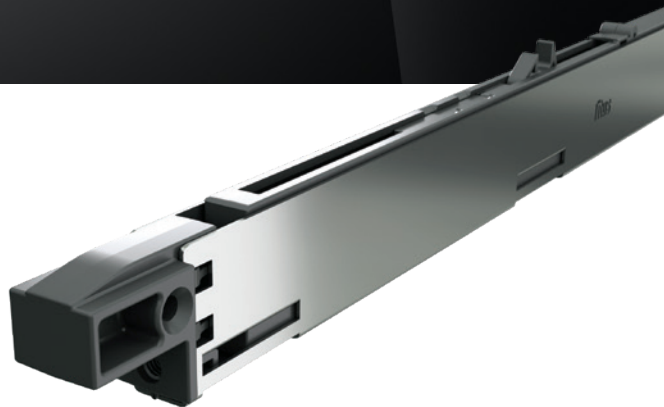

- Incorporates new Titus damper with ART function for smooth and controllable movement
- Low pull-opening force
- Designed for easy opening, silent functioning and less rebound at closing

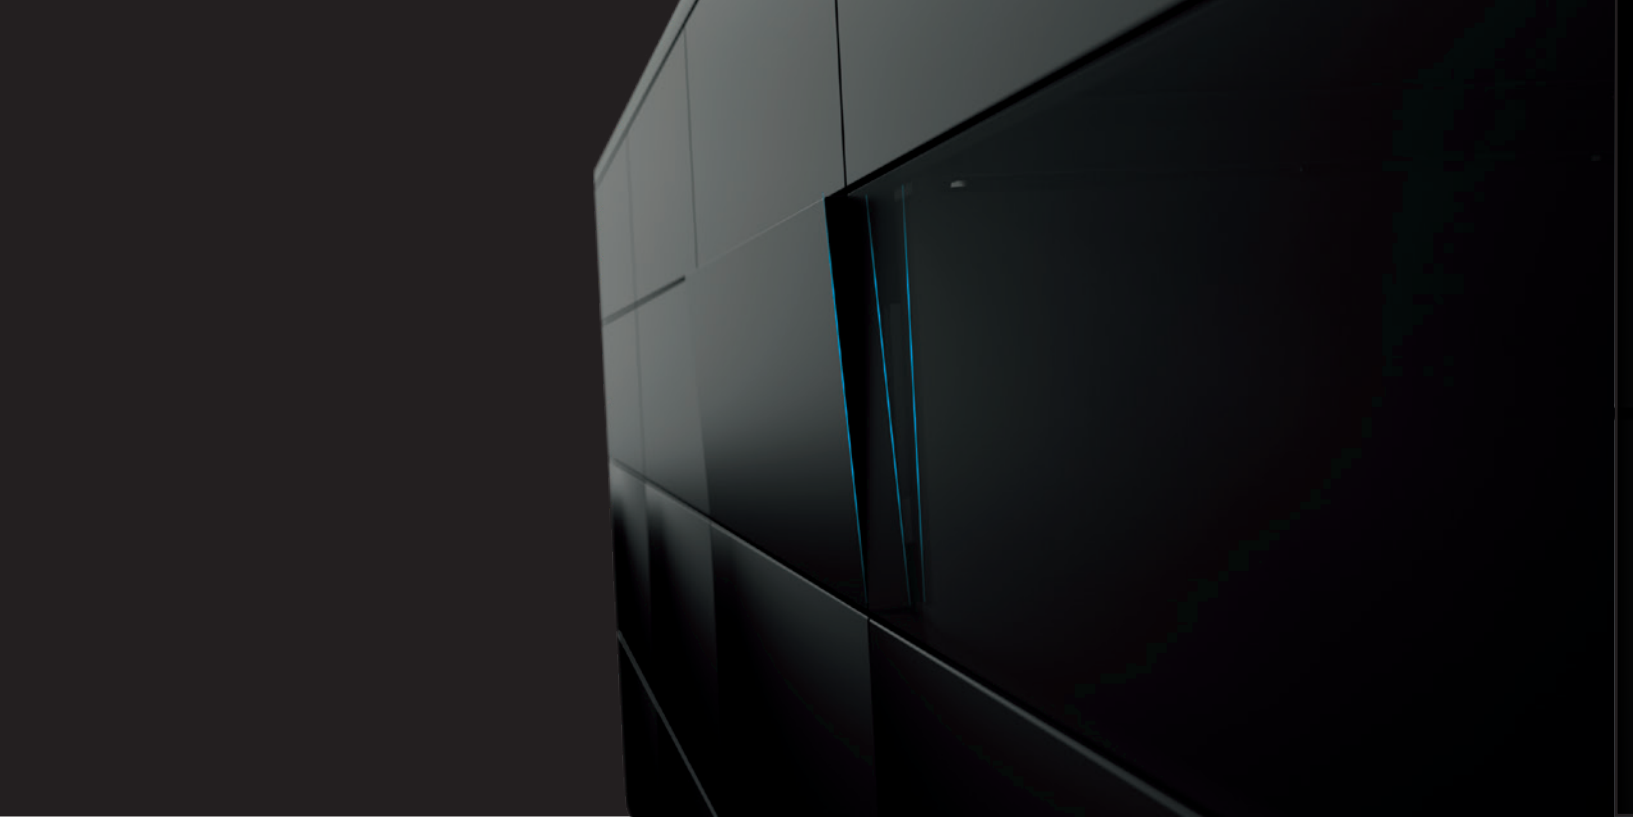

Drawer runner compatible with Tacto

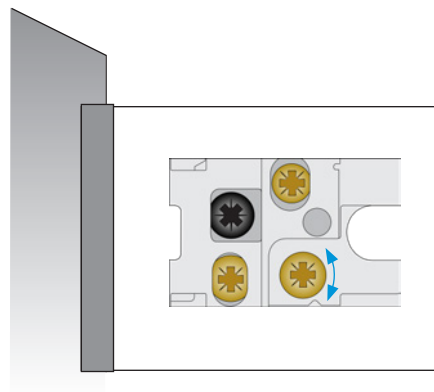

- Intuitive installation of Tacto mechanism without pre-drilling
- One runner for standard drawer and drawer with Tacto push-opening system
- Tacto can be mounted at the same time as runner or retrofitted in the future
- Reduced stock complexity and easy access

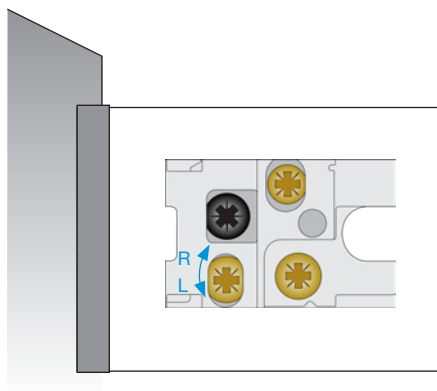

Tilt adjustment

- Accessible at the front of the drawer for simple drawer alignment
- Definition of a door-to-side panel gap
- Uniform gap layout of cabinets
